

FAS Green Tip of the Month

Drink Responsibly... Drink Tap!

Americans spend over \$16 billion a year on bottled water...
but is bottled water better than tap?

- Tap water is subject to stricter regulations than bottled water
- Many brands of bottled water use tap water as their source

What can I do?

Choose tap over bottled water
Carry a reusable water container

Use water pitchers instead of bottled water when planning events

Replace water coolers with a filtration system
