

SS Credit 4.1: Alternative Transportation, Public Transportation Access

Intent

Reduce pollution and land development impacts from automobile use.

Requirements

Locate building within 1/2 mile of a commuter rail, light rail or subway station or 1/4 mile of 2 or more bus lines. (1 point)

Submittals

- Provide an area drawing highlighting the building location, the fixed rail stations and bus lines, and indicate the distances between them. Include a scale bar for distance measurement.

Narrative

The project is serviced by local bus service that is within a 1/4 mile of the site. Bus service is provided by the city and includes Line 70, 70A, 66, 86 and 64. Supplemental service is provided by Harvard University Shuttle service.

Supporting Documents

- Drawings **Site Plan indicating local bus and campus shuttle service lines**
